

On October 14th, 2019, the project “Green Chemical Engineering Network towards upscaling sustainable processes - GREENERING”, had its kick-off meeting in Brussels. GREENERING has the objective to promote and boost the industrial application of green chemistry and sustainable technologies, developing the tools for the scale-up and implementation of emerging processes in the industry.

Words from Rita Duarte the action chair

It is my pleasure to welcome you all to Greenering network. To gather such a diversity of people with a basic common interest, which is green chemistry is fantastic. The lively discussions at our first meeting in Santiago promise a really active and fruitful network.

The first joint meeting took place in Santiago de Compostela (Spain) between 17th and 18th of February 2020

The next grant period is under preparation!

During the first grant period, 3 Short Term Scientific Missions and 5 ITC conference grants were funded:

Name	Period	From	To
J. Kim	Feb 05-Feb 26	Poland	Portugal
L. Rodrigues	Feb 17-Mar 17	Portugal	Croatia
R. Casasola	Feb 20-Mar 06	Spain	Sweden

STSM grantees

Participant	Attended conference
Glauca Regina Medeiros Burin	1 st Encuentro Ibérico de Fluidos Supercríticos - EIFS 2020
Rodrigo Melgosa	EIFS 2020
Marta Marques	EIFS 2020
Kamil Jan Krzywinski	EIFS 2020
Jeonghyun Kim	3 rd RILEM Spring Convention 2020

ITC conference grantees
