The **GREENERING OPEN DAY** is exciting event where industry will open the door particularly for those interested in the green technologies such are supercritical fluids. The event is focused on the building of new knowledge on green technologies implemented in industry. Also, it is created to bring the new green bridges between industry and scientific community. It will be a place for discussion on how to implement processes at the industrial scale and what are the main barriers that these industries have come across.

## HOW TO PARTICIPATE?

If you are interested in participating this event please be so kind to send your motivation letter to:

[greenering.eu@gmail.com](mailto:greenering.eu@gmail.com), until 22<sup>nd</sup> of February 2024

Based on the motivation letter we will select 10 participants that will receive a Greenering grant to participate in this event.

The Greenering grant will cover:

- Maximum cost of 350 EUR for travel
- Daily allowances in total amount of 195 EUR/day in total for maximum 3 days, depending on the travel time.
- Transportation for the visits will be guaranteed.
